

DILUENTE RMD/91

ALIPHATIC THINNER WITH SLOW EVAPORATION

Aliphatic thinner specific to dilute solvent based oils and waxes or urethane oil lacquers.

Diluyente RMD/91 is a blend of dearomatized hydrocarbons with a very light smell and excellent solvent properties and degreasing power.

The product does not darken the wood.

Packaging available: 10 - 5 - 1 litres

Application and use

TO DILUTE. As per quantities are concerned, follow the indications mentioned on the technical data sheet of the product to be diluted. Be careful not to go over the maximum limit of solvent allowed when the products to be diluted are concerned by the EU norm in terms of VOC content.

TO REMOVE OILS OR WAXES. In order to remove from the wood previous treatments of oils or waxes or to remove excess of oils which dry with difficulties, use the product as follows:

- ✓ spread Diluyente RMD/91 with a cloth or a brush on the surface to treat
- ✓ remove the treatment with a mono disc and green pad
- ✓ remove with a clean cloth all the residues.

Then it is recommended to proceed with an impregnation treatment with an oil or a wax.

Notes

Do not use Diluyente RMD/91 into water or solvent based products

Before use always check the compatibility of Diluyente RMD/91 with the product to be diluted.

Safety rules

FOR PROFESSIONAL USE ONLY. Strictly respect the information reported on the labels and consult safety data sheets before use.

Disposing of waste

Dispose not used product and empty containers in accordance of local in force regulations.
