

RITARDANTE PU

RETARDANT THINNER FOR POLYURETHANE VARNISHES

Retardant thinner to add to mono and bi-component solvent-based varnishes in order to increase their working time.

Packaging available: bottle 1 l - drums of 5 l.

Application

Add Ritardante PU to the varnish up to a maximum of 10% to slow down the drying time. In the case the thinner is used with a bi-component product, it must be added to the already mixed blend.

Note: do not exceed the limit of solvent content imposed by the European norm (Eu.Dir.42/2004) for the specific coating product, as mentioned on the label.

Safety rules

FOR PROFESSIONAL USE ONLY. Strictly respect the informations reported on the labels and consult safety data sheets before use. Symbols of risk: none.

Disposing of waste

Dispose not used product and empty containers in accordance of local in force regulations.
