SPORTFLOOR GRIP

Water-based two-component sealer
for UV prefinished sport flooring

Sportfloor Grip is a two-component water-based sealer for sport wooden floors.

Very easy to apply, its formulation ensures a perfect adhesion of marking paints and finishing products on prefinished supports. It is quick drying, does not need sanding and can be overcoated with water-based lacquers.

SPORTFLOOR BASE 1K

Water-based mono-component sealer
for unfinished sport flooring

Sportfloor Base 1K is a mono-component water-based sealer to be applied as a first coat on large surfaces; it is very easy to apply and sand and does not change the original aspect of the wood.

Its adhesion with further finishing products is excellent.

SPORTFLOOR COLOR

Water-based two-component paints
for game lines and areas

Sportfloor Color is a two-component paint suitable for lines and area marking. The main features are a high covering, a good elasticity and excellent adhesion properties on wooden surfaces.

Available in all RAL colours on request.

SPORTFLOOR FINISH

Water-based two-component lacquer for wooden sport flooring

Sportfloor Finish is a water-based two-component lacquer certified according to FIBA standards and EN 14904 norm for sport flooring. It is very easy to apply on large surfaces and particularly suitable for heavy wear and intense traffic.

It also keeps the original colour of the wood unchanged. Compliant with the EN 13036 antiskid standards, EN ISO 5470-1 wear resistance standards, EN 13036-4 specular brightness standards.

UNIQUA SQ

Water-based Self-Linking lacquer for wooden sport flooring

Uniqua SQ is a water-based Self-Linking lacquer certified in its matt version according to FIBA standards and EN 14904 standard for sport flooring. It has very high resistance properties to wear and strong stress. Easy to apply on large surfaces for a flawless result. It keeps the original colour of the wood unchanged.

Conform to EN 13036 antiskid parameters, to EN ISO 5470-1 wear resistance parameters and to EN 13036-4 specular brightness parameters

FIRESTOP

Water-based two-component lacquer
Resistant to fire and wheels of roller skates

Firestop is a water-based two-component fire retardant lacquer for on site or industrial application. Classified Cfl-s1 fire resistance according to the EN 13501-1 European standard, on any wooden species. Highly resistant to intense traffic, easy to apply, in compliance with EN 14904 and FIBA standards for sport floor finishing. Available in matt version.

SPORTFLOOR CLEANER

Sanitizing detergent for sport floor cleaning

Sportfloor Cleaner is a specific detergent for the daily cleaning of wooden sport floors. Highly concentrated, it can be used for ordinary maintenance but also to remove residues of grease and black marks. Recommended for deep cleaning before applying Sportfloor Grip on UV pre-finished sport flooring.

SPORTFLOOR CLEANER N2

Concentrated detergent for heavy dirt

Sportfloor Cleaner N2 can be used when you have to remove black marks, grease residues and impurities. It also helps to renew the antiskid properties of the surface.

SPORTFLOOR REMOVER

Cleaning agent for sport floors

Sportfloor Remover is a cleaning agent with an excellent degreasing power, specific for sport flooring. It can be used to eliminate heavy dirt such as pitch residues after a handball game.

SPORTFLOOR GRIP&CLEAN

Anti-slip agent for sport floors

Sportfloor Grip&Clean is a cleaning agent with anti-slip properties specific for wooden sport floors. It can be used before the game to prepare the surface and during the game to restore the players' shoes grip.
