based on sodium hypochlorite

Cleaning &
Maintenance

Decontamination detergent based on sodium hypochlorite, highly concentrated. Developed complying with the WHO guidelines for the treatment of all washable surfaces in public and private places, even on the largest ones.

Reset 4.2

Technical data at 20°C – 60% R.H.

Aspect	Yellow liquid
Density	1,00 kg/litre
pH	9
Recommended amount of use	120 ml (2 caps) in 5 l water – to get a 0.1% solution 120 ml (2 caps) in 1 l water – to get a 0.5% solution
Storage	24 months in original sealed packaging - Frost sensitive
Packaging	1 litre bottles, 5 litre plastic cans

Instructions for use

Before using Reset 4.2 wash the surface with one of the detergents from our Sani-range (Saniparquet, Sanifloor, Saniplus). Shake before use. Dilute the product to the desired concentration; the lower concentration (0.1%) is sufficient to guarantee the sanitizing effect. Please follow the indications from the local authorities. Distribute evenly with a well-wrung wet cloth or mop and let it act until the floor is completely dry. Do not rinse. The diluted product can be sprayed directly on the surface and spread with a dry cloth.

Ingredients

The ingredient list complies with the EC 648/2004 Regulation of Detergents – Less than 5%:
Non-ionic surfactants, Chlorine-based bleaching agents.
Biodegradable according to the law

Disposal

Dispose of the unused product and empty packaging in accordance with the provisions of the local legislation in force.
